

Magic Mirror TV

Mirror TV

Bathroom TV

Giving a new look to your television display and video screens,

When the TV is off the TV Mirror is an elegant mirror with 35% luminous reflection just like a normal mirror.

When the TV is on the TV Mirror automatically and instantly transforms itself into clear, transparent glass enabling you to watch TV.

Description Ideal for concealing television display and video screens, Crea Mirror is a high reflective mirror coating on a clear substrate which gives television displays and video screens a modern, transitional look.

Crea Mirror is ideal for commercial and residential applications. The glass allows for screens to be hidden from sight when not in use, while also allowing the picture to show through unobstructed when the video is on.

Crea Mirror is tremendously durable and can be easily handled, transported and processed. Due to the durability of the pyrolytic coating, it does not degrade over time, which gives the product a virtually unlimited shelf-life.

Main Features

- Effectively hides video screens when they are not in use
- From 10" up to 84" screen size or video wall
- Decorative wooden frame
- Wall mount or in-wall options
- Luxurious design. With the function of mirror and TV together
- Waterproof and heatproof screen
- Installation is simple and convenient.
- Fully sealed design, to prevent dust enters into the gab between glass and LCD screen.
- High brightness options
