ENGINEERED
IN SWEDEN

OUR strong ties with major AV distributors and installers as well as industry leaders enable us to develop head-end systems specific digital signage solutions to the market needs of your business. We strive to always create simple and intuitive wall mounting solutions for digital signage display setups as well as in-room installations.

Our aim is to consistently find ways to improve on our digital signage products offering.

Maybe it is time for your business to discover a new level of refinement with Multibrackets large screen digital signage solutions.

M Public Display Stand series

This is one of the most flexible and multifunctional display stands of its kind. The Dual display possibility makes this unit optimal for videoconferencing and more detailed presentations where a dual screen scenario might be needed. The various heights is useful for both for conference rooms or other situations where the viewers are sitting down and in public areas such as trade shows, hospitals and other places where the audience are standing. So get an optimal positioning for both seated and standing audiences - in any part of your facility.

O ur M Multibrackets Public Display Stand series has a versatile usage area. Mainly made out of a light weight aluminum construction it is both heavy duty and will support most ideas and environments it is placed in.

When developed much emphasize has been put into the stability and overall quality of the display stand, both when put in place but also when in movement. As a stable and sophisticated display stand base with wheels are included as standard. This means the series is very easy to move around. This makes it a perfect partner for use in public environments such as conference rooms, class rooms or hospitals.

The M Multibrackets Public Display Stands can be used with screens in a standard landscape mode or a portrait mode. It can be used with or without wheels, and with or without shelves, camera holder and power outlet.

The M Multibrackets Public Display Stands can be used with screens in standard landscapes mode or a portrait mode. The optional display stand base can even be drilled into the floor to make the display stand stay put in any public environment it is placed in.

M Public Video Wall Mount Push

Our innovative design combined with a video wall mount partially pre assembled right out of the box, makes this our fastest installing video wall system ever!

W ith the market for Video Wall installations growing at a fantastic pace, the need for a high quality, affordable and installer friendly mounting equipment has become in the need by many.

Our M Public Video Wall Mount Push is a video a wall solution quick to install, and easy to configure. Made especially for video wall applications. This is a professional mount focusing on multiple screen installations, easy and fast installation and simplified maintenance. Making it an installers dream.

With the M Public Video Wall Mount Push you can create multiple different configurations and screen set ups. Finally you can leave the tedious wall spacers behind. As with other Multibrackets products the installation is built on the first rail installed onto the wall. thereafter the second is put up and leveled very easy as the third etc. No measuring

and guessing needed. We think of it as one of the most simple and fast ways to make video wall installation come to life.

Easy-access to your after-service.

The Push in pop out feature gives easy-access to any display for quick serviceability. This is often one of the major functions needed when building a video wall mounting solution or when integrating a single screen into the wall.

Simply push against the screen to release the lock, then the screen will pop out, you do not need to remove any other screens to access a center screen for maintenance or when placed in recessed areas.

The pop out feature is handled by its scissor arm construction expanding out. Of course the screen is as easily pushed back into place after maintenance is finished.

Create almost any Video Wall configurations imaginable

Ideal for recessed areas or where there is a surround around the whole video wall blocking access

Designed to create a fast, simple and seamless installation

Push in Pop out for easy access and after service

Simple Fine tuning for post-installations

Easy lateral shifts for post-installation (slide the screen/ screens apart or together for perfect alignment)

Create rows of screens 1x2, 1x3, 1x4 or walls 2x2, 3x3 or larger

M Public Video Wall Mount Push HD MAX 90 KG

The M Public Video Wall Mount Push HD might just be one of the markets most innovative and easy to install video wall mounts available. With numerous post installation possibilities and a tailored pantograph alignment system this might be the most easy to use, yet most powerful video wall mount system you have ever seen.

With the market for Video Wall installations growing at a fantastic pace, the need for a high quality, affordable and installer friendly mounting equipment has become in the need by many. Our M Public Video Wall Mount Push HD is a video a wall solution quick to install, and easy to configure. Made especially for video wall applications. This is a professional mount focusing on multiple screen installations, easy and fast installation and simplified maintenance. Making it an installers dream.

Easy-access to your after-service
The "Pop out" feature gives easy-access to any display for quick serviceability. This is often one of the major functions needed when building a video wall mounting solution or when integrating a single screen into the wall. Simply push against the screen to release the lock, then the screen will pop out, you do not need to remove any other screens to access a center screen for maintenance or when placed in recessed areas.

The pop out feature is handled by its scissor arm construction expanding out. Of course the screen is as easily pushed back into place after maintenance is finished.

8 knobs making detailed adjustments an ease
With the built in fine tune adjustments each of the M Public Video Wall Mount Push HD can be adjusted individually to match "its neighboring screens". By 8 knobs the screens can be adjusted in depth, side and height. What before could take hours for an installer to measure and re install, is now fixed in a matter of minutes. Truly an installers dream come true.

Super heavy duty construction
The M Public Video Wall Mount Push HD is an iron structure with epoxy painting, holding screens up to 50kg in "pop outed" position. We think this may just be the strongest video wall mount on the market, making continues service and usage of the mounts easy.

Iron structure with max load of 50Kg
Designed to create a fast, simple and seamless installation
Modular mount with unlimited Video Wall display configurations possible
Compatible with landscape or portrait mounting

M VESA Super Slim
Tilt & Turn HD/Plus HD

M VESA Super Slim Tilt & Turn HD (Heavy Duty) ends an era of bulky and heavy arms needed to flex, tilt and turn. If your aim is to find a discreet partner for that new LED, LCD or plasma in a light weight, super strong solution not visible from any side yet giving you a maximum flexibility then the M VESA Super Slim Tilt & Turn HD is your choice.

The uniquely designed low profile M VESA Super Slim Tilt & Turn HD mount fits most 42" and up to 84" flat panels up to 52 kgs. It is very well-suited for those applications where seamless integration counts the most. The M VESA Super Slim Tilt & Turn HD is part of the Super Slim Series of fixed, tilt and cantilever mounts offering a slim design without compromising on functionality. Moreover, this wallmount has an extended profile of 260 mm from the wall.

The specifications this product reveals are simply incredible.

Super Slim defines the minimal 50 mm of the low profile to wall. It extends to a maximum of 260 mm proving that this construction is truly flexible being so lightweight.

Yet still, produced with high quality materials creating a super strong solution carrying screen up to 52 kgs.

Being both super slim and super flexible the built in functions of the wall mount allows you to optimize the screen for the perfect viewing angle. Wherever you are.

M VESA Super Slim Tilt & Turn HD is suitable for a wide range of screens sized 42" and up to 84". The VESA standards that are supported by this mount is 100 / 200 / 300 and up to 400 mm. If needed, the wall mount can be combined with an optional VESA extender kit which enables the 600x400 mm VESA standard. This means that M VESA Super Slim Tilt & Turn HD is suitable for most of the VESA standards including the rare ones.
